Technical Support

Infrastructure

We utilise Amazon Web Services (AWS) for this service, and will provision your new infrastructure in the AWS Data Centre closest to you.

Server

Your server will be created within a dedicated AWS account and will run Linux. We will manage the infrastructure and operating system of your new server.

Backups

We backup your environment daily, and retain these backups for 14 days.

Access

You will have a dedicated virtual Windows PC right next to your new server which is accessed using the AWS WorkSpaces client. From this WorkSpace you can access your server directly.

Storage

All storage for your server is backed by Solid State Drives.

System Administration

Selerity look after all your regular System Administration tasks on Linux including:

- user and group management
- security patching

Requests are made using the Selerity Help Desk and undertaken by Linux System Administrators.

Minimum Term

This service is available on a 12 month contract.

The minimum total cost is **\$32,688** excluding GST on a 12 month contract.

Things you will be charged extra for
SAS License ¹
SAS Installation ²
SAS Administration and Support ³
Storage for backups over the daily change and retention allowance
Outgoing network traffic over the monthly allowance
Adding additional disk storage or cloud other resources

¹Bring your own SAS License or buy one from Selerity.
²SAS Installation is available as a separate service. Discount may apply if multiple services are combined.
³SAS Support and Administration is available as a separate service, which includes Installation.

Technical support

This service provides email and web based Technical Support for questions, issues or advice on your Infrastructure.

Security

Security is of the utmost importance to us, and when providing this service we only access your environment using secure methods, and only when needed. All tasks done on your environment are fully documented in our ticketing system and available to you for review at all times. We have strict internal policies on security to ensure that your environment remain secure.

Information about pricing

Currency

This service is available globally and charged in **US Dollars**. All prices mentioned in this document are in US Dollars.
